

# SchoolMessenger Notification Service

Our school has contracted with SchoolMessenger, a leading provider of notification services for parental outreach, emergency broadcasts, and other communications for education.

The SchoolMessenger system is designed to automatically notify parents for reasons that impact the safety and academic performance of students. SchoolMessenger will extend emergency preparedness procedures, as well as inform parents of upcoming school events such as statewide testing and parent meetings.

SchoolMessenger will *not* replace current school communication methods. Teachers will still be accessible for live visits and will continue to communicate via current methods including paper-based memoranda. The school's acquisition of the SchoolMessenger system is intended to extend its commitment to remain personally connected with parents by offering additional and timely communications. SchoolMessenger notification services (<http://www.schoolmessenger.com>) are provided by Reliance Communications of Santa Cruz, California, serving thousands of schools, districts, colleges and universities with timely alerts since 1999.
